The secret of your new beauty. The high quality Permanent- Make-up by LCN

Fascinate the people around you with your permanent beauty and natural perfection. Enjoy this new feeling of freedom by always looking your best without any trouble.

Experience Permanent Make-up by

It always feels good to look one's best. Whether you are working out or going to a candlelight dinner, Permanent Make-up by LCN provides permanent beauty. Perfectly shaped eyebrows, a perfect eye line and beautifully shaped sensual lips become part of your daily accoutrement.

Experience the new perfection. With Permanent Make-up by LCN!

One of Permanent Make-up by LCN innovative methods is pigmentation with the Kryo-Liner. Our specialists use the revolutionary Kryo-Liner pigmenting unit to achieve extraordinary results.

Competence and quality – for your personal beauty.

Our pigmenting units and colours are the ultimate products worldwide for various reasons. Permanent Make-up Colours are of the finest colour pigments. They are biological and dermatologically safe. They have been tested and certified by internationally renowned scientific institutes and universities.

Our Permanent Make-up system enables you to draw the finest lines and achieve fascinating results that look completely natural. The colours used are individually mixed according to your skin type and your personal requirements. A specialist who has been trained and certified by our company will carry out the pigmenting step by step.

The way to a perfect result in pigmentation.

- One of our specialists will provide extensive consultation and information.
- First, the shape and colour of the pigmentation are defined with a precise preliminary drawing and discussed with you. Then the colour is inserted into the skin.
- Then the actual pigmenting process for your perfect Permanent Make-up begins.
- The colour is inserted into the skin.
- At first the colour is more intense. After 2-3 weeks the pigmentation has reached its "final stage". It now has the desired shade.
- A second appointment ensures that the pigmentation is thoroughly checked, if necessary, "perfected".

The result of LCN Permanent Make-up: Your perfect and permanent beauty!

Providing as many options as life itself. Permanent Make-up by LCN.

The various possibilities to enhance your beauty with Permanent Make-up by LCN are fascinating. You can choose your individual perfect Permanent Make-up. Our specialists will provide competent advice according to your personal style!

You have various options:

- **Eyebrows**
Correcting the shape and drawing of single hairs.
The result is perfectly shaped brows.
- **Eye lines**
The permanent eye line is applied to the upper and/or the lower lid. Those who wear glasses or suffer from allergies immediately notice the advantage of Permanent Make-up. More and more men, however, decide on a permanent eye line or a lash enhancement, to thicken the appearance of the lashes to make the eyes more expressive.
- **Lash enhancement**
The pigment is placed in the lash line. Your lashes appear thick and full without using mascara.
- **Lips**
A perfect and permanent lipline draws attention to your lips. You can enhance or change the shape of your lips according to your personal wishes.
- **Medical pigmentation and the correction of scars**
Medical pigmentation is frequently used for the reconstruction of missing skin areas after surgery, e.g. the aureola or the nipple. After reconstruction, the pigmented area is almost indistinguishable from the healthy breast.

What to do after having a Permanent Make-up treatment?

- Avoid direct sunlight or UV radiation after the treatment. Protect your Permanent Make-up with products that contain an ultraviolet filter.
- Refrain from visiting a sauna or swimming pool, generally avoid contact with water directly after pigmentation.
- Only use cosmetic and cleansing products that have been recommended for use with LCN.
- Don't remove scabs.

The achievement of reputable specialists!

How to care for your skin after Permanent Make-up?

We recommend the skin be treated after Permanent Make-up with special care products by LCN. Depending on the recommendation of your pigmentation specialist either use:

Skin Balm

A special care product in a jar, use immediately after pigmentation. The balm prevents scabs and makes the skin soft and elastic.

Vitamin Gel

This unscented LCN Vitamin Gel is optimally suited for the treatment of the skin after pigmentation. Special active ingredients balance the moisture content of the skin and protect the pigmentation.

Perfect Care

Long-term protection for your pigmentation: with panthenol, bisabolol, aloe vera, jojoba oil and sun protection factor. Apply Perfect Care Cream regularly onto the pigmented skin areas.
