THE PROFESSIONAL CARE RANGE.
NOW ALSO AVAILABLE FOR HOME USE.

MIAN

For Men...

... LCN has the right hand and foot care products. Your hands are your visiting card. Hands connect, send signals, feel, and move throughout your entire life. Hands display our life and, with LCN Man Care products, are individually and intensively nourished in order to be perfectly placed in the spotlight. Our feet carry us through life and, just like our hands, accept the challenges of our daily lives. Support and nourish the manly needs of your feet with the intensive and easy-to-apply LCN Man Care products. The LCN Man Care range addresses the special needs of men's skin and is as effective as it is easy to use.

Man Hand Care

Man Hand Cream, 50ml

Rough and chapped hands do not have to be that way. This intensively nurturing hand cream has a high-tech combination of such active ingredients as ivy, rice bran, and sunflower seed extracts, as well as vitamins A and E that moisturize and provide long-lasting care for men's hands.

Easy Hand Care

Man Files

LCN has designed a file set especially for the structure of men's fingernails. The 100/100 grit white file is used to quickly shorten the nail, whereas the polishing file gives men's nails a high-gloss finish.

Man Hand Gel, 50ml

This easily absorbed and cooling hand gel provides refreshment when speed is of the essence. In addition, the ivy, rice bran, and sunflower seed extracts protect the skin from external environmental stress and revitalize the skin.

Background

High-tech combination of active ingredients

Day in and day out, we are subjected to a variety of environmental stress factors. The high-tech combination of active ingredients in the Man Hand Care products is composed of ivy, rice bran, and sunflower seed extracts. Those ingredients protect the skin from the cell-damaging effects of smoking, exhaust emissions, and heavy metals.

Man Foot Care

Man Leg Splash Sports, 100ml

This deodorizing and nurturing foot spray with long-lasting effect is the perfect product for after a workout. The vital complex of peppermint, citrus, and cypress oils has a pleasant cooling, refreshing, and relaxing effect.

* Tip

Sweaty feet or aching muscles? Then simply use Leg Splash Sports. The spray refreshes and nourishes the feet and legs not only for after a workout, but also after the sauna or the swimming pool.

Fresh Feet

for athletically active men

Man Foot Cream Sports, 100ml

Sweaty feet belong to the past: This vitalizing and nurturing foot cream with Cell Active Men®, a combination of taurine, green alga, and Siberian ginseng, has a stimulating and strengthening effect. The anti-bacterial active ingredient of Farsenol plus® inhibits the onset of foot odours.
